DETAILED ACTION

Allowable Subject Matter

1. Claims 1-4 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The limitations of independent claims 1 and 3 do not appear to be found in the Prior Art of Record.

Regarding independent claims 1 and 3, the Prior Art does not teach nor suggest in the claimed combination a method of copying data from a local storage array to a remote storage system wherein"

"if there are any outstanding writes in progress, then if the sequence number of the received command is less than a present look-ahead fence, then replacing the current look-ahead fence with the minimum of the current look-ahead fence and the look-ahead limit for the command;

otherwise, if the sequence number of the received command is not less than the current look-ahead fence, then putting the command in a waiting queue;

if there were no writes in progress, then setting the current look-ahead fence for the remote array controller to the look-ahead limit for the command".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 2 and 4 are allowed for being dependent from allowable claims 1 and 3.
